

### Church Investment Group Stewardship

At Church Investment Group (CIG), we define Stewardship as the manner in which Episcopal Church endowments use financial resources to achieve strong portfolio performance and a positive impact in the world. Based on the Episcopal Church's pillars of Love, Care of Creation and Social Justice, Church Investment Group's investment strategy is designed to preserve capital and support our core values. Investments are managed with an eye to all that we've inherited while protecting and furthering our collective future. By integrating Environmental, Social and Governance approaches to investment, Church Investment Group seeks to do "well" financially while acting as steward and advocates for our most precious environmental and social resources.

Proxy voting is an important component of Church Investment Group's approach to Stewardship. CIG has structured its investments in order to be able to vote its proxies. CIG seeks to direct its proxies to be voted in accordance with the proxy voting guidelines of the Committee on Corporate Responsibility (CCSR) of the Executive Council of the Episcopal Church.
